About ZDNet UK

ZDNet UK (www.zdnet.co.uk) is the most advanced website for technology decision makers who need complete coverage of business technology. The website takes the principles of web 2.0 and applies them to the business environment to give our members personal control over their experience. It brings a new look, features and functionality to enable IT professionals to interact with and get the advice of their peers, build their own social network, connect with vendors, and collaboratively solve operational and strategic business technology problems on their terms.

In addition, our experienced team of editorial specialists continues to deliver news, analysis and interpretation of the ever-changing IT environment and how technology impacts business today - providing the trusted, independent, authoritative content that has made ZDNet.co.uk the first stop for everyone in IT.
